Education

Institute of Engineering and Technology	**July. 2020 – May 2024**
Bachelor of Technology in Information Technology	*Lucknow, Uttar Pradesh*

Experience

Restdali	**Sep 2023 – Dec 2023**
Web Developer Intern	*Online*

- Employed NodeJS within a collaborative team at Restdali, gaining valuable insights and skills. Proficiently utilized Object Data Modeling(ODM) to streamline database communication, enhancing efficiency in project operations.
- Applied ODM methodologies in a project to facilitate Create, Read, Update, and Delete (CRUD) operations, contributing to a comprehensive understanding of authentication mechanisms.
- While working with the team at Reastdali, I designed the user interface using react.js for a task management application and implemented JWT authentication.

Projects

Contact Management App | *Project Link*   **July 2023**

- Developed a Contact-management application,it is a nice interactive application to store the contacts and update and delete them as for use .
- User will be able to see all his contacts that he added and can change accordingly.For Frontend development HTML, CSS, React.js were used, for Backend Node.js, and Express.js technologies were utilized

Drum Kit Master | *Project Link*   **March 2023**

- Designed and developed an interactive website showcasing a diverse collection of drum beats, allowing users to create melodious rhythms either by clicking or using suitable keyboard inputs.
- Implemented an intuitive user interface, enabling seamless creation of diverse and captivating melodies through the utilization of various drum beats. For frontend HTML, CSS, and JavaScript technologies were used.

Education Welfare Website | *Project Link*   **Jan 2023**

- Developed a welfare-focused website aimed at facilitating donations for children's education. Integrated Razorpay payment gateway in testing mode to enable users to contribute funds securely. Built a user-friendly interface helpful while using.
- Configured the system to send confirmation emails to users upon successful donations, ensuring transparency and acknowledgment for their contributions towards education.

Technical Skills

Languages: C, C++, JavaScript
Developer Tools: HTML, CSS, Bootstrap,React.js, Node.js,Express.js
IT Construct: Data Structures And Algorithms, OOPS,DBMS
Database: Mongo DB(Nosql).

Honors

- Solved 400+ DATA STRUCTURE AND ALGORITHM based problems across various platforms. Click here
- Ranked 77 in CodeRush Challenge 2023.
- Ranked 1535 (Among Top 10%) in Coding Ninja Weekend Contest 101
- 2nd Rank in Intermediate exam in town

Certificates

- Code Goda 2023 competition organized by Agoda. Click here
- Code Rush Contest Rank - TheJobOverflow Click Here
- Programming with JavaScript - Coursera Click Here
